Topic: ARISE AND THRESH, O' WATCHMAN

Text: Micah 4:9-13

INTRODUCTION: The designs of enemies for the ruin of the church often prove ruining to themselves, they prepare themselves for the destruction and put themselves in the way of it ; they are snared in the work of their own hands. (Exodus. 10:7; Esth. 6:4-13)

The people of Judah (Jerusalem) were asked to, **Arise** and thresh their enemies, instead of fearing and fleeing from them. To *thresh*, means *to give a thrashing to; beat hard like beating the seeds out of a grain*. They were neither to plead their weakness nor say that they were no match for the confederated enemies; because God will make their horn iron to push them down, and make their hoofs brass to tread upon them and beat them in pieces. (Micah 4:13; Isaiah 41:14-15)

The lord through the mouth of his servant (the angel of the church) has told the watchmen that they have been made prosecutors, and that they are reigning with Him. He had declared The Watchman as the white house of America where decisions are taken, so we are to decide what holds in this nation! Therefore, what we didn't permit should not hold. (Num 14:28; Job 22:28; Matt 16:18-19). The Watchmen should rise and exercise their authority as they travail in prayers to bring down the hand and the will of God upon this land. (Isa62:1-4; Micah 4:10-13). When God has any work for his people to do, He will furnish them with strength and ability for it, making the horn iron and the hoofs brass. Therefore, whenever He does so, they are expected to exert the power He has given them and execute the commission. The Watchman must Arise and Thresh. (Luke10:17-19; Deut 33:26-29)
